- **Tools & Frameworks:** Visual studio code, Git, Figma, Microsoft 365, Firebase, Heroku, MongoDB, API, Stripe, React, NextJS, Tailwindcss.

## PROJECTS

---

### Netflix clone | React

October 2022

- Built a Netflix clone with ReactJS which has a login page feature, home page feature and a profile page feature with Google Auth.
- Utilized technologies like firebase to create a user Database to store user information and TMDB API to pull in recent movies to the home page.
- Integrated payment checkout with stripe that allows the user pay for subscriptions in Nigerian currency.
- Wrote some Java script to tell if a user is logged in and if a user subscribed to a particular package or not and decreased the load times by 75%.

### Covid 19 tracker | React

September 2022

- Built a Covid-19 tracker web app using React, React hooks and styled components from material UI.
- Utilized the Disease.sh API and wrote some JavaScript to pull covid-19 live statistics from 100+ countries.
- Integrated a live map from material UI to pinpoint covid 19 affected and unaffected area.

### Keeper app | React

August 2021

- Created a web app with React and material icons called the keeper app which allows users store and delete multiple notes.
- Executed some JavaScript code to increase its functionality and efficiency by 100%.

## EXPERIENCE

---

### HNG INTERNSHIP PROGRAM

Lagos, Nigeria

Frontend Intern

October 2022 - present
